

## Winchcombe School Post 16 destination trend from 2014 As at May 2021

### Winchcombe school destination data trend 2014 – 2021 As at December 2021

	2014	2015	2016	2017	2018	2019	2020	2021
<b>WS as at Feb of year12 collected by Prospects</b>	95%	89%	90%	93%	99%	97%	89% Agreed data Nov 2020 = 99%	97% Agreed data Nov 2021
<b>Glos county</b>	94%	94%	95%	95%	No data	94%	Not published	Not published

Published data is collected by Prospects for Glos County Council. This data is checked with schools in Nov of year after students leave and then finalized in Feb/Mar the following year. The data shown here is that published by Prospects based on students remaining in education/employment for at least 2 terms after leaving WS. If a student does not respond to the survey or is in alternative provision they are recorded as NEET.

**NB** drop in data for 2020 leavers shows the impact of lockdown which took place in Jan-Mar of 2021. As a result of that lockdown, 10% of students either lost their apprenticeship, dropped out of college or did not respond to the data survey.
