Dear Parent/Guardian,

Re: Practical sessions in DT

At Winchcombe School we have always prided ourselves on the quality of the Design and Technology provision within the school. Students are able to design and make various projects and take their projects home when they have completed them. Over the last few years it has become increasingly more expensive to provide materials to enable students to make their projects and many of the materials are unable to be re-cycled. To enable us to continue to provide our students with the same quality of Design and Technology materials and the opportunity of keeping their projects, we would like to ask for a contribution towards the costs.

We have assessed the amount of contribution for each year group as shown below:

Year 8	£5
Year 9	£5
Year 10 & 11	£13*

*Students will need to purchase their own components or finishes (such as varnish, stain...) or specialist materials that we do not stock.

We have tried to keep the contribution to an absolute minimum and have not included the cost of materials that can be re-cycled or that are donated to the school.

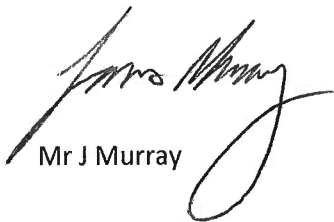

This contribution can be made easily through parent pay at any time.

We would also request that students supply their own aprons due to the current situation, or alternatively you can purchase an apron on ParentPay for £3.45, this will then be available for collection by your child from the Finance Office.

I would like to thank you in advance for your support, without which we would not be able to give your son/daughter the opportunity to make the high-quality products that they enjoy making so much. We hope that both you and your child are proud of the products they produce.

If you have any queries, please do not hesitate to contact us at School.

Yours sincerely,

Mr J Murray
